Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: This is a further discussion to the proposed claim language that previously agreed upon during the telephone interview on Oct. 16, 2003. The examiner suggested to the applicant's representative to amend the claims to include the following claim language in order to overcome the cited prior art. "A method for locating and navigating to a site home of a network site in an information network from a site page within the network site using a site home navigation control associated with a user's computer, wherein the network site is not an intranet site associated with the user's computer, comprising:
receiving a request to navigate from a site page to a site home of the network site using the site home navigation control associated with the user's computer..." After receiving the proposed amendments, an update search will be conducted and an Office Action will follow.
